Producers have the flexibility within their own budgets to fund and control advertising costs. Their own members' savings funds can't help, because the savings are not there for such uses.

However, it is important to note that the changes that have occurred in the past few years have been limited to the extent of the changes in the number of people who are able to work. The number of people who are able to work has increased, but the number of people who are able to work has not increased as much as the number of people who are able to work.
